RDO recognizes Nate Carrington, Pat Barron and Hasan Yerdelen with 2010 Achievement Awards

Mar 04, 2011 - barlows1

Roche Diagnostics Operations continues the tradition of recognizing exceptional people with the 2010 RDO Achievement Awards that were presented to the recipients at the February 24 RDO Town Hall. This year, the RDO Achievement Awards are linked to our key results of **Financials +3**. The three achievement awards categories are:

- Recognized as Customer Driven
- Deliver Operational Excellence
- Drive a High Performance Culture

This year's High Performance Culture award winner is **Hasan Yerdelen**. Hasan (*pictured right with Tom Adkins*) received the award for High Performance Culture for his focus on continuous improvement for the betterment of the overall distribution operation. Much of his effort for improvement centers on quality, efficiency and customer satisfaction. In this role, he identified specific process improvements to expedite the picking process, reduce and optimize the amount of containers being shipped to a customer, and ensures the highest quality of order processing.

The criteria for the **High Performance Culture** award include:

- ♣ Fully accountable for achieving our key results
- ♣ Take full ownership for achieving results; going above and beyond
- ♣ Behave in a way that fosters accountability, collaboration and alignment
- ♣ Accomplish such results (the "what") while exhibiting the following RDO Cultural Beliefs (the "how")

Nominees were: **Cindy Akers, John Boring, Michelle Bostock, Keric Fitzgerald, Mark Giesler, Frank Halik, Brenda Hull, Kirk Koon, Carolyn Meyers, Christina Rothenberger, Joe Simpson, Angela Somers, Robin Wagner, Jason Weaver, Jamie Wilson and Hasan Yerdelen.**

Congratulations to all nominees and special congratulations to the RDO Achievement Award winners!
